

2025 NARI BARA AWARDS
RESIDENTIAL INTERIOR 250K-500K

SERENITY IN WOOD AND LIGHT

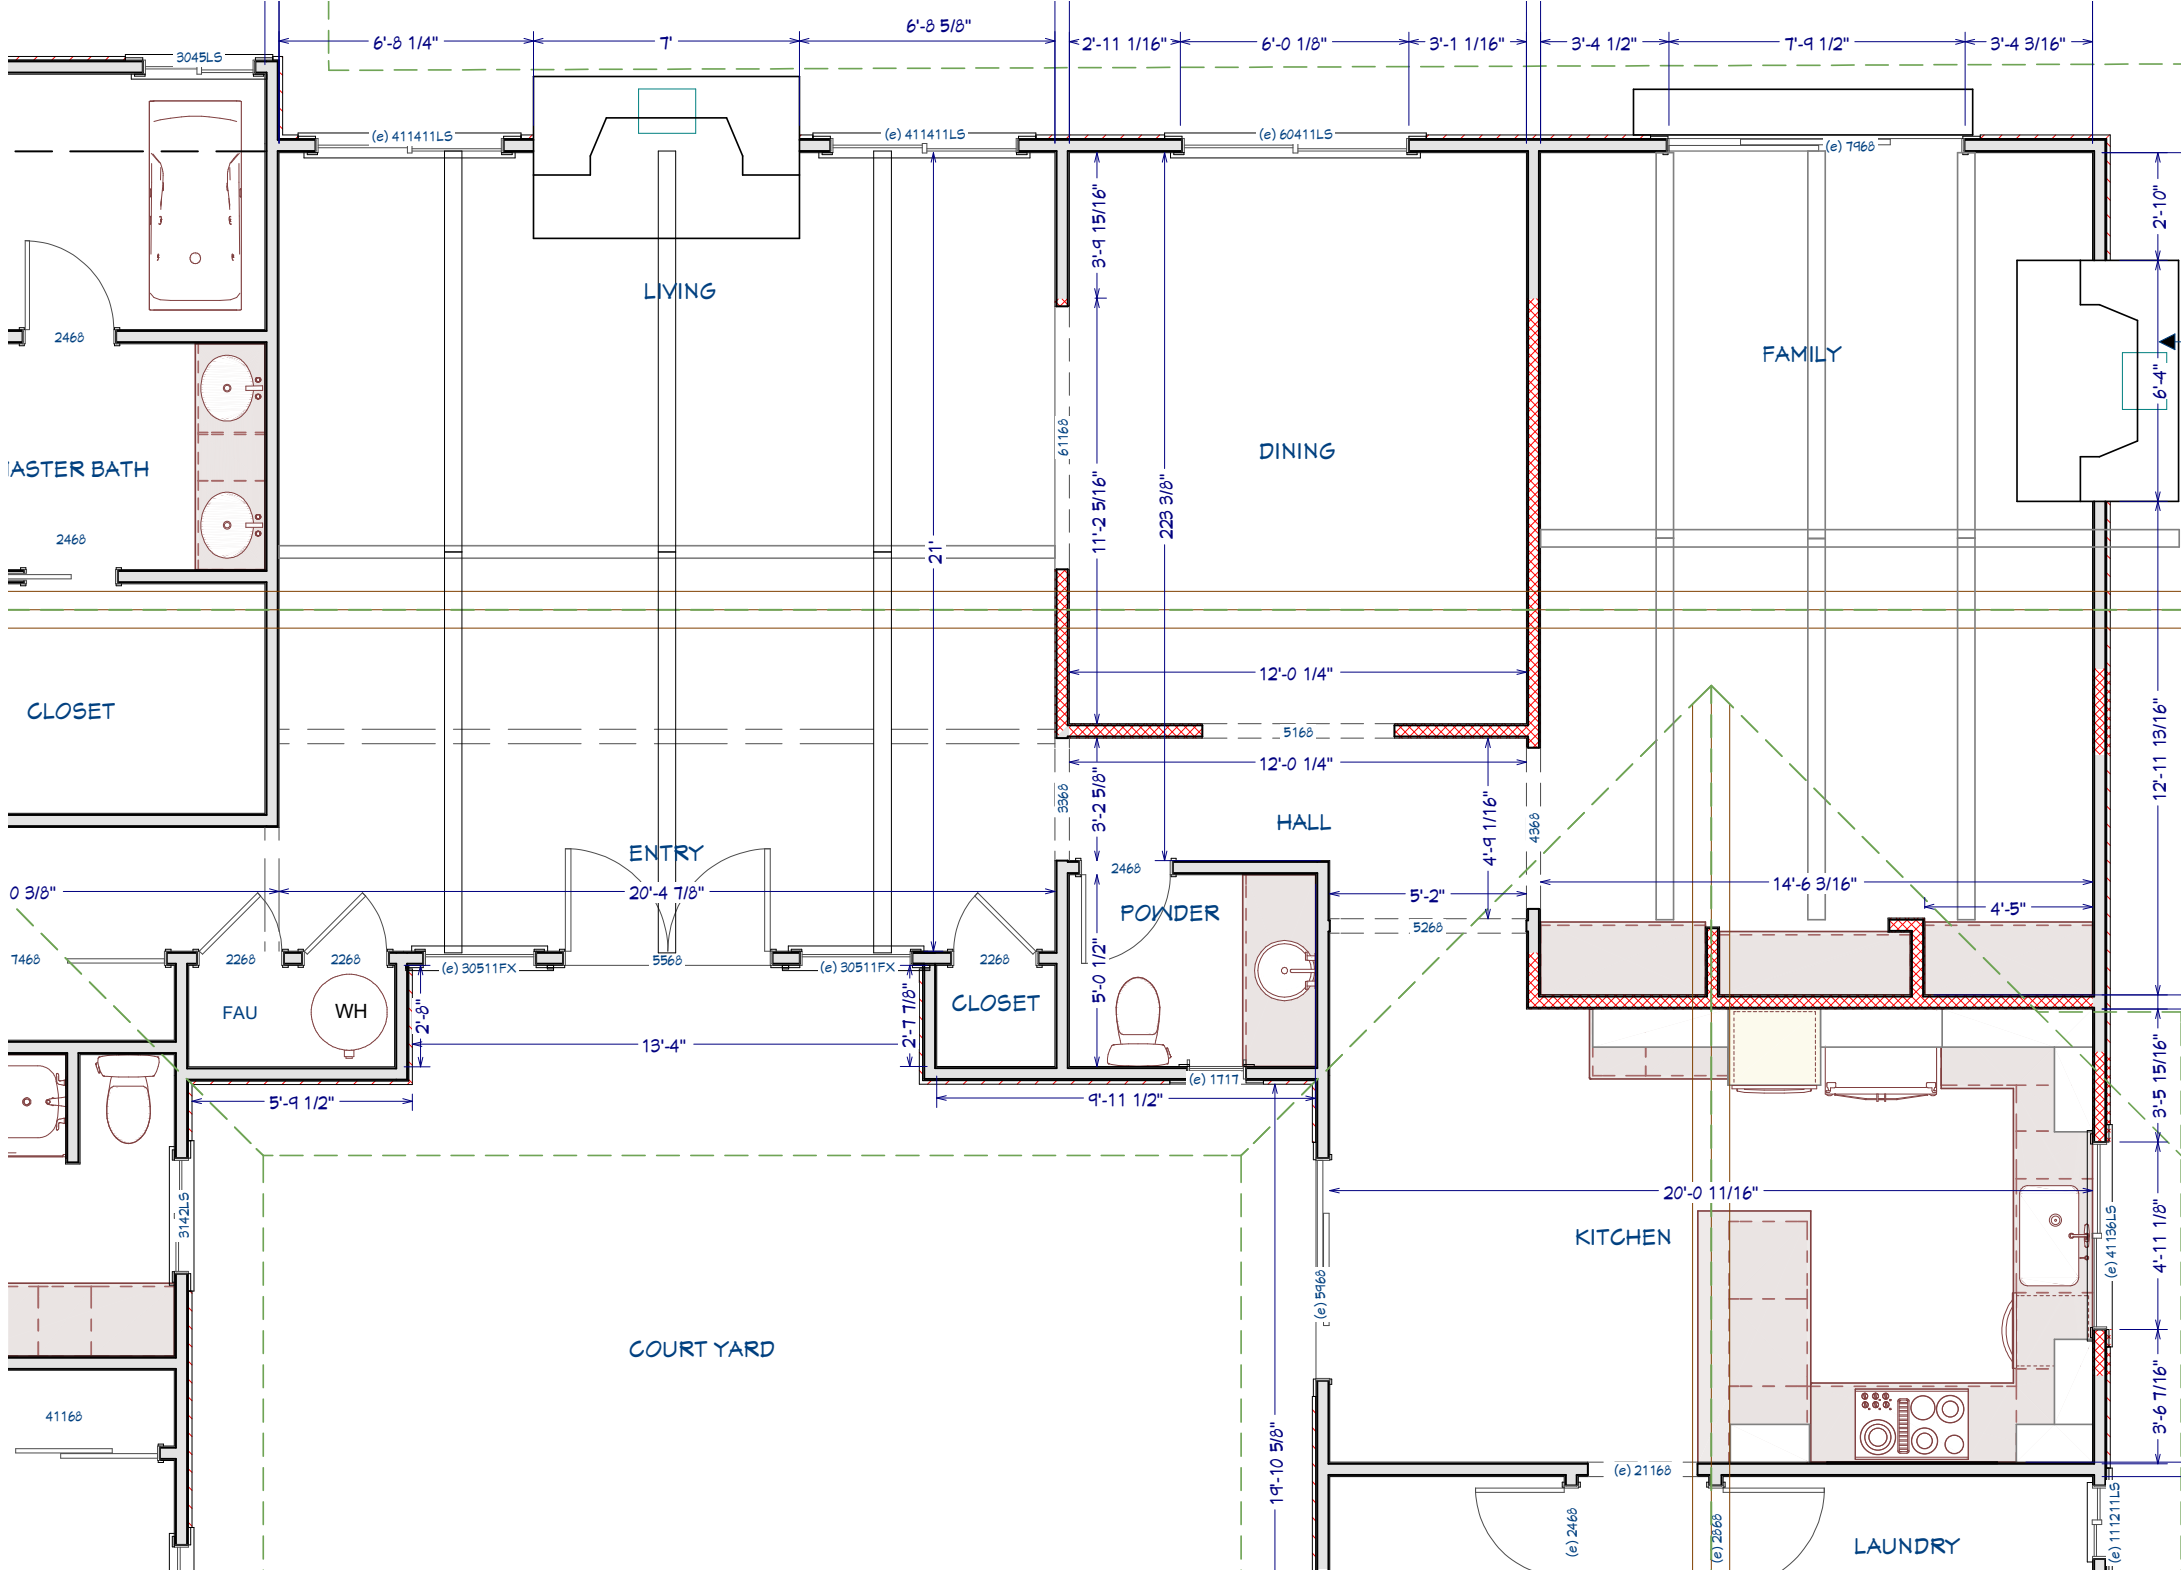

PROJECT OVERVIEW

This transformative remodel of a Spanish-style home beautifully blends Mediterranean charm with a modern, Zen inspired aesthetic. The kitchen, family room, dining room, and living room were thoughtfully reimaged to enhance both flow and functionality. Key structural changes included relocating the kitchen and family room, introducing large **squared-off** arches, and incorporating clean lines throughout. Natural materials such as white oak cabinetry paired with Vadara quartz countertops, satin brass accents, and high-end appliances, lend warmth and sophistication to the modernized layout. The result is a serene, elegant environment that effortlessly balances simplicity with luxury perfectly suited for both everyday living and stylish entertaining.

CLIENT GOALS

OBJECTIVES:

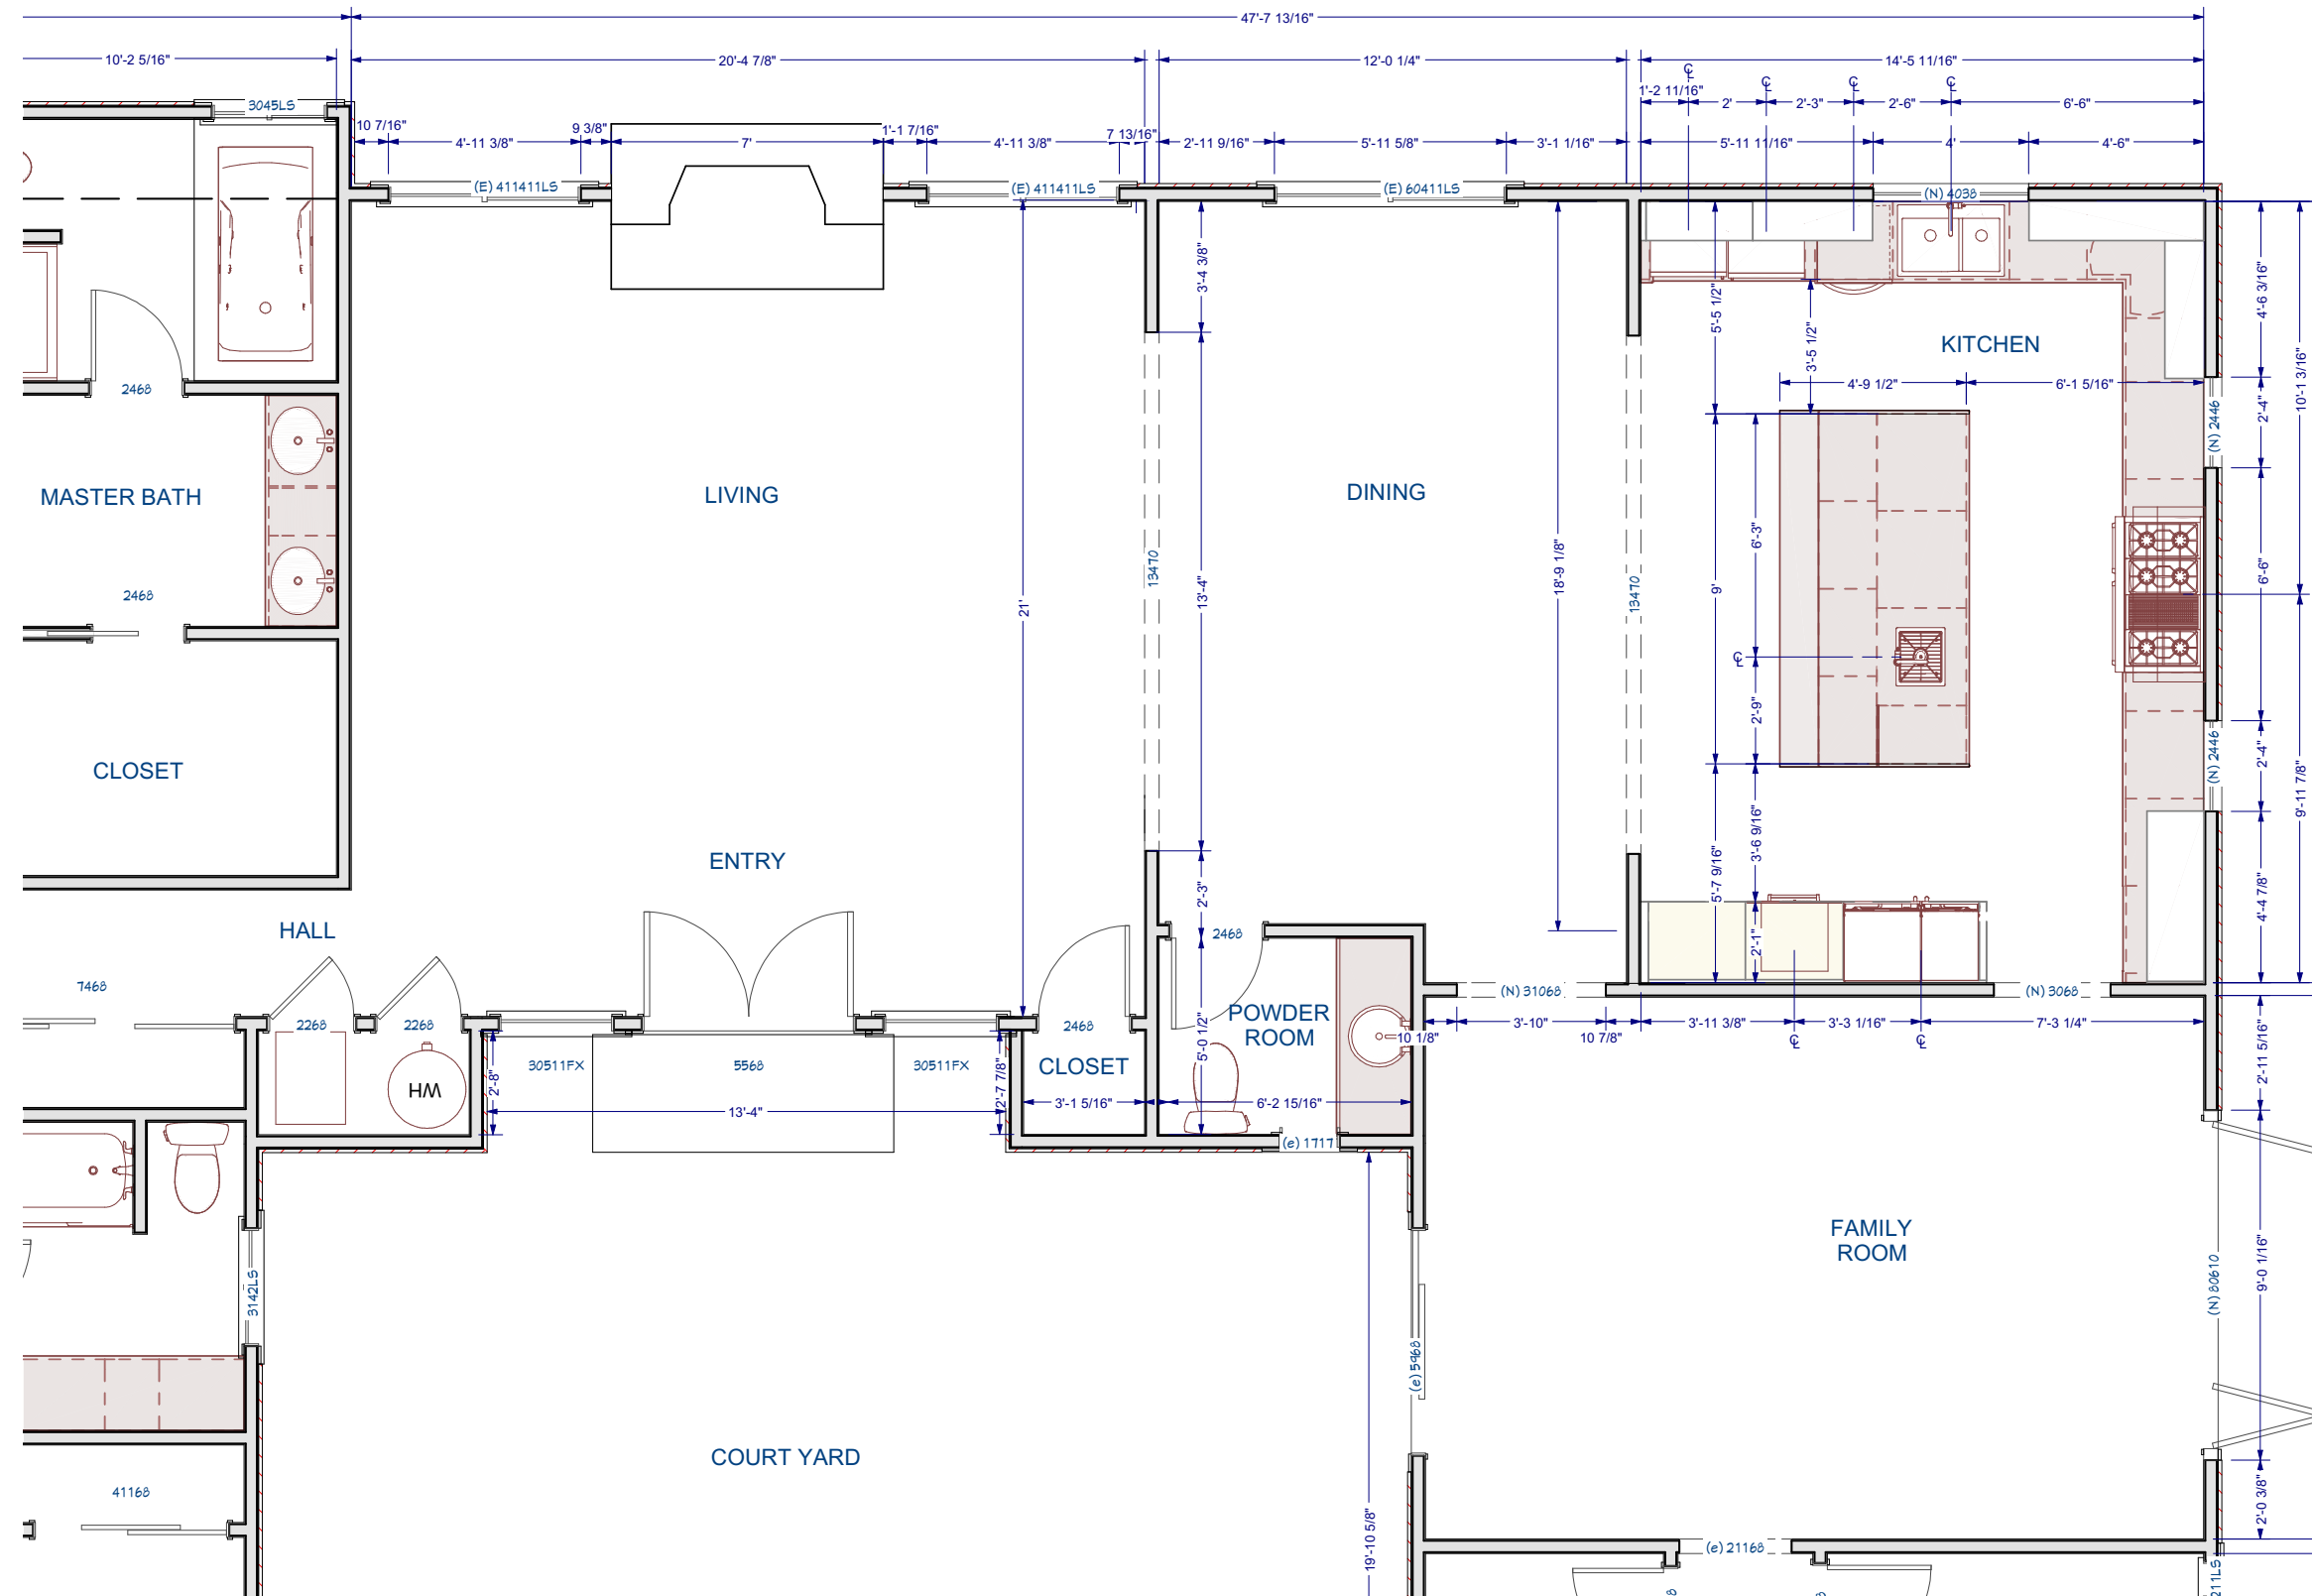

Our clients loved the Spanish-style exterior, they envisioned a modern, Zen-inspired interior that embraced openness and tranquility. Their requirements were for a large kitchen, smaller family room & a bigger dining room for entertaining. They requested minimalist design and no upper cabinets.

CHALLENGES:

The living room was sunken, with an unused fireplace. The hexagonal spanish style floor was not to their taste, nor was the brick oven. Several arched hallways bisected the space, which they wanted to open up.

CONCEPT

MODERN ZEN

PROPOSED PLAN

SERENE, EARTHY, CLEAN-LINED, TIMELESS

The layout was completely reimaged; relocating the small kitchen to the former great room and creating a spacious, integrated dining area that flows seamlessly between the new kitchen and living space. Throughout the home, finishes were carefully selected to reflect a serene, minimal aesthetic that aligns with their vision of calm, contemporary living.
